Dinosaur Empire!

By Abby Howard

Discuss

Talk through your thoughts.

- Explain to someone what convergent evolution means with an example from the book.
- What is something you learned about the Triassic Period that you didn't know before reading this book?

Create

Make an experience of your own.

- Draw a picture of your favorite modern-day animal. Label it to show what similarities and differences it has compared to ancient dinosaurs.
- Make yourself into your favorite dinosaur using blankets, clothes, scarves, boxes, cardboard or paper!

Imagine

Use your imagination to explore.

- If you could go back in time with Mrs. Lernin from the book, what dinosaur or ancient creature would you be most interested to see?
- Imagine you're back in time with Mrs. Lernin. Make binoculars out of two toilet paper rolls, and see what "dinosaurs" you can find outside!
